INES-Ruhengeri - SWE 3513 Artificial Intelligence

Individual Assignment 2 - Declaration of authorship

Full name	TUYISINGIZE Devotha
Registration number	25/27747
Username	ug2527747@ines.ac.rw
Verification code	AI-A2-7747
Final commit hash	18d2a89a49647a83f546bbfd649600ff660454df

• I declare that this submission is my individual work for SWE 3513 Assignment 2, and that the dataset, seed, verification code, metrics and plots follow my own registration digits.

• I used an AI assistant during this assignment. Its use is disclosed honestly in evidence/AI_USE.md, including which parts it produced and how I checked them.

• I have read, run and understood all submitted code. I can explain any part of it and make small changes to it during the assessment.

• I have not copied another student's code, fingerprint, metrics or explanations, and I have not shared my work with other students.

• I understand that the dataset is synthetic and that the system is a classroom decision-support prototype.
